We build your vision  
Since 1999

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in financial reporting and compliance with regulatory requirements. The text notes that incomplete or inconsistent records can lead to misunderstandings, disputes, and potential legal consequences.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the significance of using reliable sources and standardized procedures to ensure the integrity and validity of the information gathered. The document also discusses the challenges associated with data collection, such as ensuring data privacy and security, and the importance of regularly updating and reviewing the data to reflect current conditions.

3. The third part of the document focuses on the analysis and interpretation of the collected data. It describes the process of identifying trends, patterns, and anomalies, and how these insights can be used to inform decision-making and strategic planning. The text stresses the need for a thorough understanding of the context in which the data was collected and the potential limitations of the analysis.

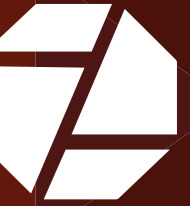

4. The final part of the document provides a summary of the key findings and conclusions. It reiterates the importance of ongoing monitoring and evaluation to ensure that the data remains relevant and useful over time. The document concludes by encouraging a culture of continuous improvement and collaboration among all stakeholders involved in the data management process.

*Ing. Dip. Musa Azizi founded his business in 1999, drawing on his extensive engineering experience from Kosovo's largest factory before the war. His engineering background and commitment to quality have earned the company a reputation for trust and reliability.*

*Over 25 years, the company has successfully completed numerous significant projects in Kosovo and Albania, including the rapid construction of over 70 Al-Petrol stations. Known for his dedication, transparency, and well-organized approach, Musa Azizi's company is recognized as one of the fastest and most dependable in Kosovo.*

## *ProMobi*

*ProMobi is a furniture manufacturing company based in Ferizaj City, Kosovo. In response to the growing demand for exporting their products to EU countries, they have constructed a larger factory to enhance their manufacturing capabilities. This new 4,000 m<sup>2</sup> facility, built by Projekt-ing NNP, was completed in 2024.*

*The factory features a robust steel roof structure, designed to ensure safety and stability while maintaining an open central area in accordance with the architectural vision. Careful attention was given to meeting all necessary structural requirements, resulting in a facility that not only meets operational needs but also embodies durability and innovation.*

## Agronomi warehouse

*We are thrilled to announce the successful completion of our new 2500m<sup>2</sup> warehouse, a significant milestone for Agronomi. This state-of-the-art facility is dedicated to the storage of seeds and other essential agronomy supplies, and it marks a pivotal development in our commitment to supporting local farmers.*

*This warehouse is not just a structure; it represents a hub of agricultural advancement and a cornerstone for regional agricultural development. By providing a secure and optimized space for storing critical resources, we aim to enhance the efficiency and effectiveness of farming operations throughout the region.*

# *Grand Decor*

*Grand Decor Restaurant stands as a hallmark of modern architecture in the country, celebrated for its innovative design and transparent roofing that allows for year-round natural light. Over the past few months, our team has meticulously crafted this space, overcoming the complexities of the roof design to create a truly unique dining experience.*

*Renowned in Kosovo for hosting exquisite wedding events, Grand Decor has become a favored destination for both locals and renowned artists alike. Its blend of elegance and contemporary style makes it the most sought-after venue in the region, attracting visitors from all walks of life.*

We are proud to announce the successful completion of the Natural Pool, the largest and most exceptional spa facility in the country. Our company has dedicated significant effort to ensure that this project stands as a premier attraction, offering unparalleled relaxation and wellness experiences.

The facility features a robust roof, constructed with a strong steel framework and covered with high-quality sandwich panels. This design not only enhances the aesthetic appeal but also ensures stability and security, providing a safe and enjoyable environment for all visitors.

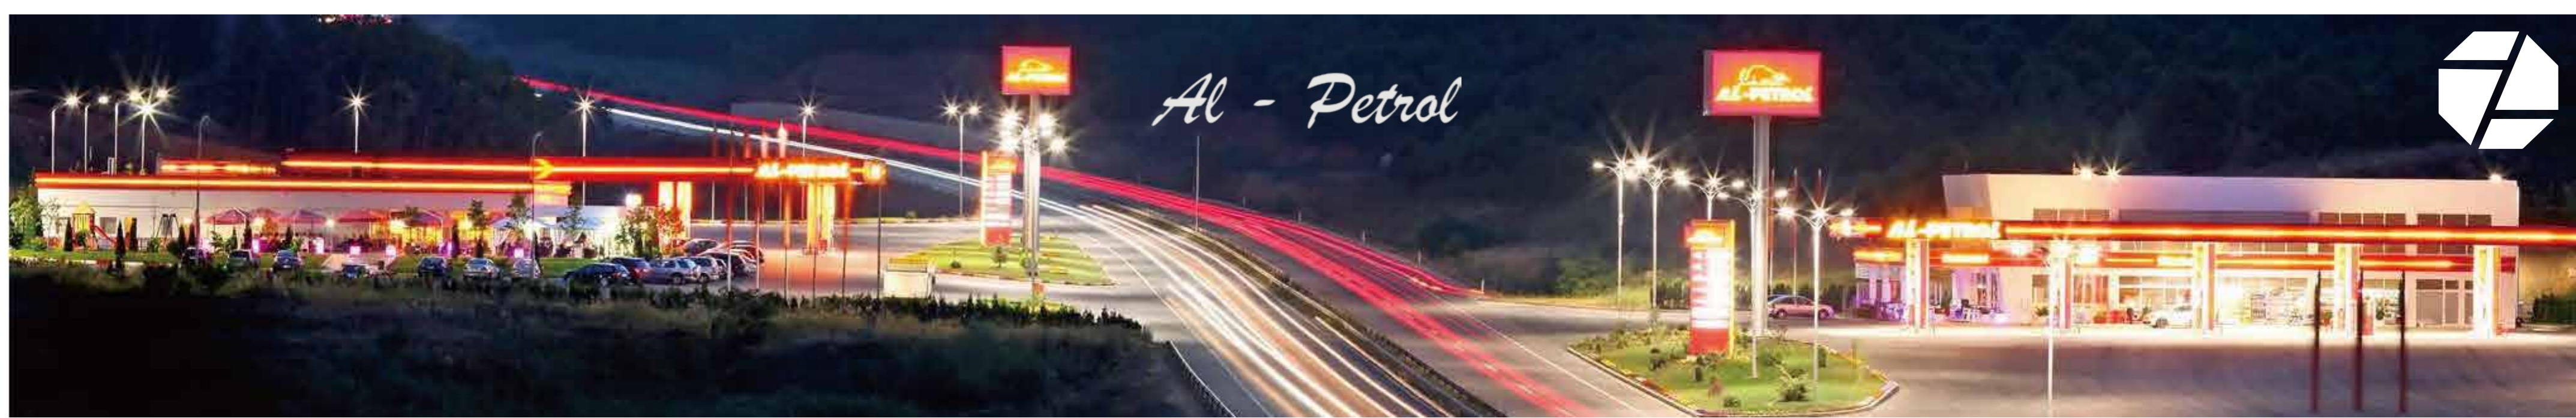

*Comflex is a small business specializing in the production of mattresses tailored to local needs. We have developed a new warehouse to enhance their production capacity and support increased demand construction solutions to a diverse range of projects.*

## SPECIALIZED IN BUILDING OIL STATIONS

---

As a comprehensive construction and engineering firm, we specialize in a wide range of services. Our expertise includes the construction of oil stations, metal structures, and roofing. We are adept at alubond work, combining aluminum and composite materials for aesthetic and functional building components. Additionally, our capabilities extend to lighting solutions, fuel tank installation, and the intricate task of pipeline installation. Our commitment is to deliver high-quality, integrated services across various construction disciplines, ensuring the successful execution of diverse projects.

# Spahia Petrol

# Al - Petrol

With a rich history of over 24 years in the field, our professional team has successfully constructed over 70 pump oil stations for reputable clients such as Shell and Al Petrol. Our extensive experience has positioned us as a trusted partner in the industry, demonstrating our commitment to delivering high-quality and reliable solutions. Our expertise goes beyond mere construction; it reflects a deep understanding of the unique requirements and standards associated with pump oil stations. Clients can rely on our seasoned team to bring a wealth of knowledge and skill to every project, ensuring the successful completion of each endeavor

# *Oil Group*

# Berisha Petrol

We are proud to announce the complete redesign and reconstruction of Berisha Petrol station, a project that showcases our commitment to excellence. Our company has meticulously handled every aspect of this transformation, from the innovative metal construction work to the thoughtfully designed lighting and aesthetic outlook. Each element has been carefully crafted and assembled to create a modern, inviting space that enhances the customer experience while reflecting our high standards of quality and design.
